

Homework Assignment IX

Physics 105.2, Instructor: Petr Hořava

This assignment is due Friday, April 18. As I keep saying, Chapter 6 is probably the most important and most central chapter of Hand-Finch, but also perhaps the most difficult. This Homework Assignment continues with exercises from that Chapter.

1. Hand-Finch, Problem 5 from Chapter 6.
2. Hand-Finch, Problem 14 from Chapter 5. (Yes, this is not a typo, this problem is from Chapter five, not from Chapter six!)
3. Hand-Finch, Problem 7 from Chapter 6.
4. Hand-Finch, Problem 12(b) from Chapter 6.
5. Hand-Finch, Problem 17 from Chapter 6.
